

Professional, Reliable, and a Problem Solver

Why I, Marco Folino, is right for the job

Why should you count on me?

1

I am persistent
and love to tackle
challenges head
on

2

I am always
reliable, putting
in the extra time
and effort to get
the job done

3

I love learning
new topics and
gaining
knowledge from
a variety of
sources

Can I back these claims up?

YES!

1

Started working at 15 and have excelled ever since

2

Stayed late many times at my current job in order to get samples out on time

3

I pay extremely close attention to detail ever since becoming a lifeguard, ensuring each patron is safe and having an enjoyable experience

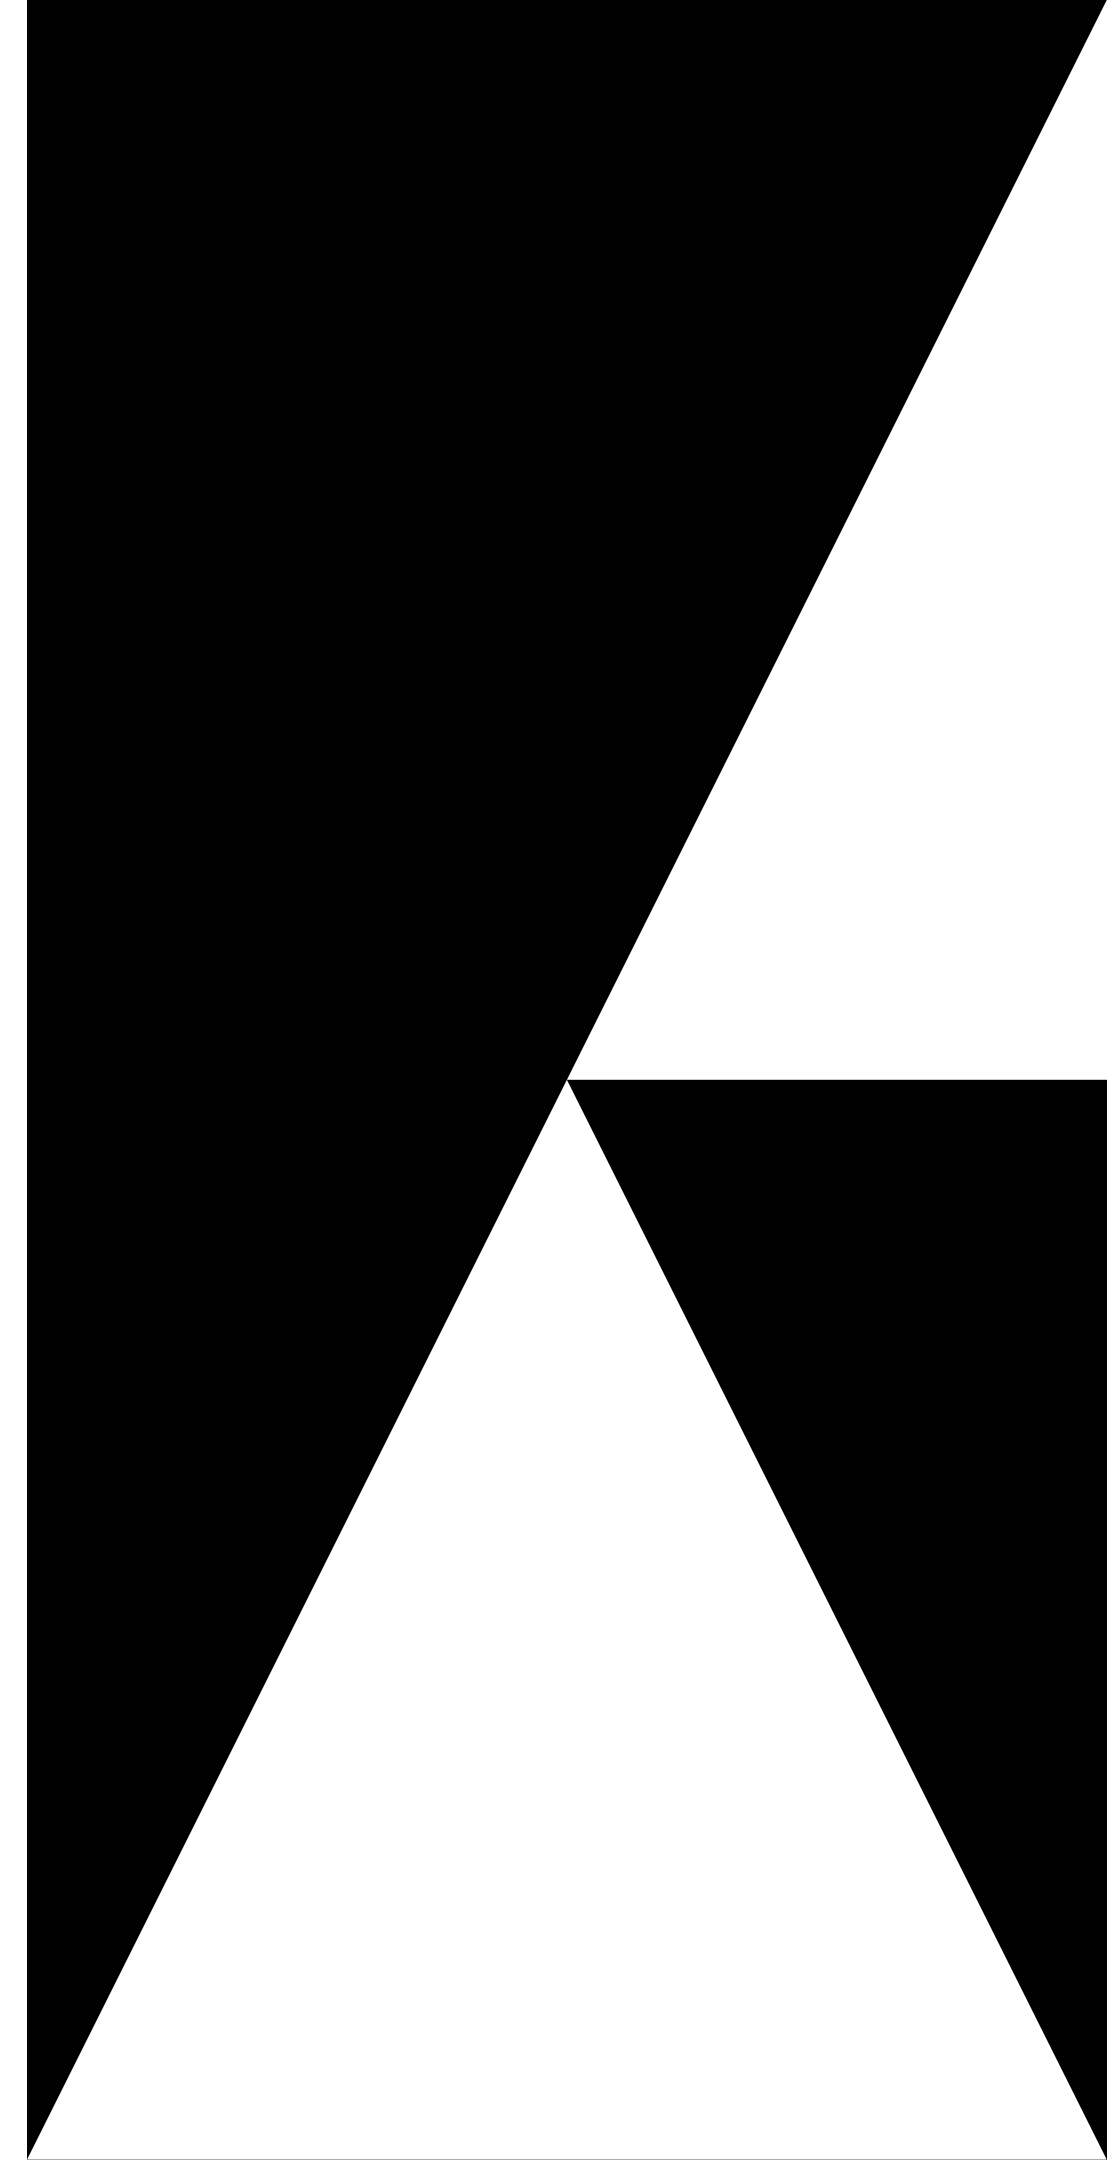

4

I pride myself on never turning an opportunity down, even if it means less free time-report writing, sending out samples, etc.

5

I am committed to being the best version of myself, even if it means putting my pride aside in order to learn or gain new knowledge

But how does
this presentation
help my
portfolio?

To Prove Who I am as a Worker

What I Have Done To Prove Myself

01

Have lead countless meetings

02

Intergrated new softwares that I have drastically helped workflow

03

Built monitoring logs in order to keep track of hundreds of projects

04

Being a professional every step of the way, even if something doesn't go my way

Even though I pride myself as a hard worker...
I am still a human being

On my free time, I love to golf with my friends and family. It allows me to be outside and still compete with myself

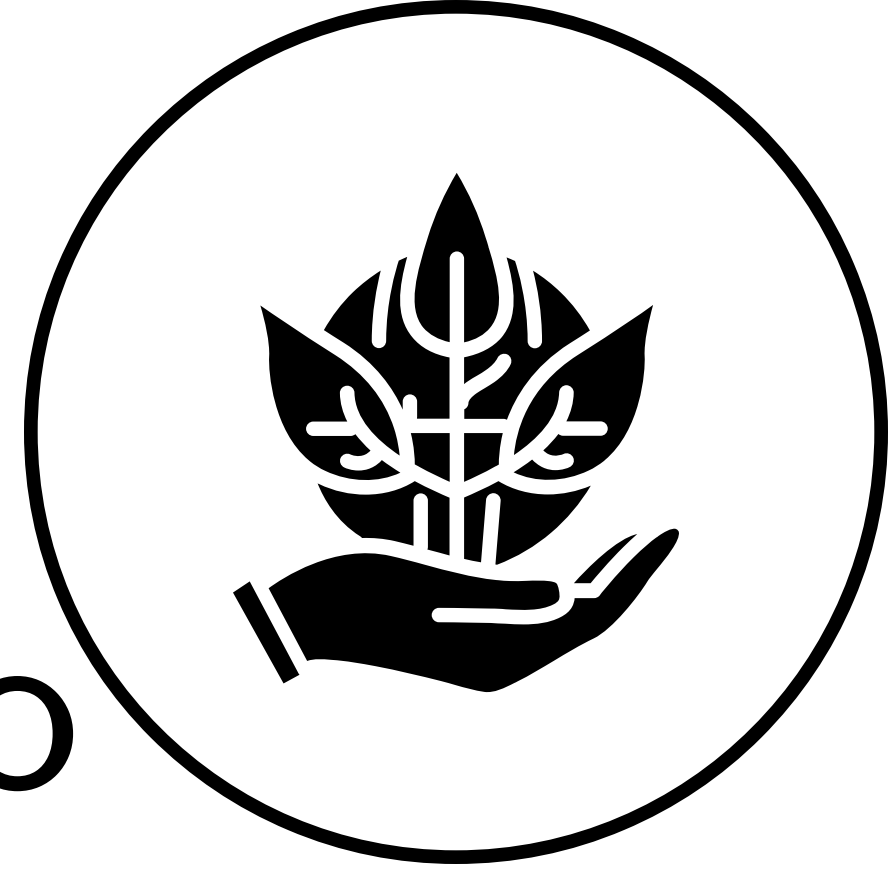

I also enjoy going to the gym, as it pushes me to be the best version and healthiest version of myself. By setting personal goals, it allows me to overcome obstacles and strive to outwork myself every time I am there.

In the winter, I love to snowboard, as it keeps me outside in nature, and it is a huge adrenaline rush

Besides what I do, I am a person who...

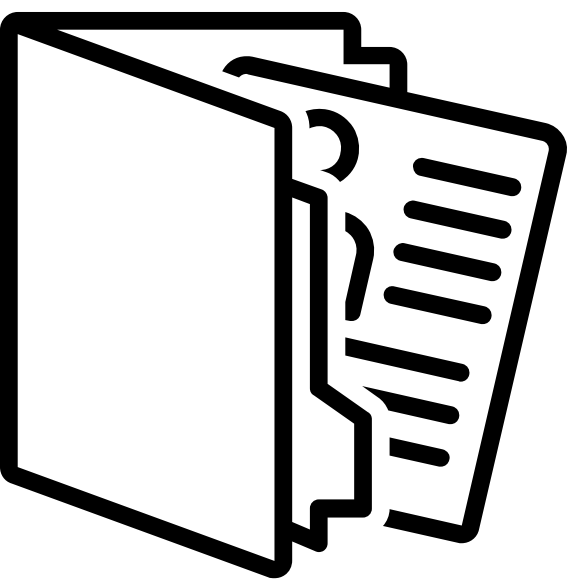

- Cares deeply about others
- Supportive and will do anything to help
- Outgoing and loves to meet new people

- Someone who listens and tries to understand
- Determined even out of work, trying to improve myself and others

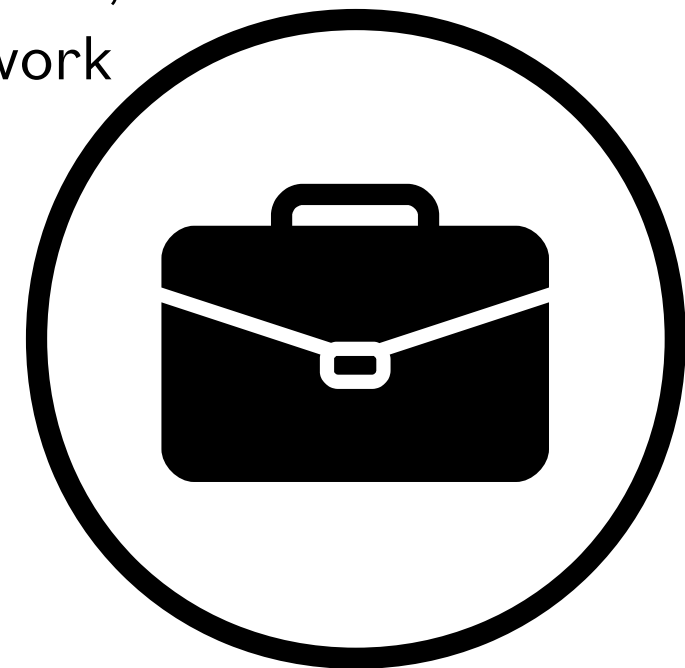

I want my portfolio to embody who I am

Whether it displays my academic and professional achievements, or to simply show who I am as a person...

I want people to get to know me and what I stand for. My portfolio should show others that I am a very hard worker and very proud of that, but also that I am still myself outside of a work environment.

**THANK
YOU!**
