PROFESSIONAL SUMMARY

Experienced Environmental Consultant skilled in conducting environmental assessments, data analysis, and inspections. Proven expertise in collaborating with teams to address complex challenges and enhance client satisfaction through timely, high-quality reporting. Seeking to leverage skills in environmental consulting to support and drive impactful projects for a forward-thinking organization.

EXPERIENCE

April 2023 - Present

Environmental Consultant

Eagle Environmental, Inc., Bristol, Connecticut

- Conducted environmental assessments to identify compliance with regulations and best practices.
- Collaborated with multidisciplinary teams to address complex environmental challenges.
- Analyzed environmental data to inform decision-making and drive project success.
- Prepared comprehensive reports detailing findings, recommendations, and action plans for stakeholders.
- Increased efficiency in data collection and analysis by utilizing advanced software tools for environmental monitoring and reporting.
- Conducted field surveys to collect data about levels of pollution and contamination at sites and areas of consideration.
- Achieved positive community relations through active engagement in public consultations related to environmental projects.
- Performed continuous reviews of construction practices to check whether debris or chemicals entered protected areas.
- Inspected industrial and municipal facilities and programs to evaluate operational effectiveness and determine compliance with environmental regulations.
- Enhanced client satisfaction with timely delivery of high-quality environmental impact reports.

March 2022 - June 2023

Landscaper

Greenhouse Tavern, Burlington, CT

- Operated and maintained landscaping equipment, ensuring optimal performance and safety standards.
- Collaborated with team members to execute seasonal planting and maintenance schedules efficiently.

- Conducted regular inspections of landscaped areas to identify and address maintenance needs proactively.
- Performed planting, watering, mulching, and edging of lawns.
- Removed weeds, hazards, and debris from common pathways to improve usability.

March 2020 - November 2022

Head Lifeguard

Thomaston Town Hall, Thomaston, CT

- Trained and managed team of lifeguards on pool safety and risk management protocols.
- Provided customer service and responded to inquiries and complaints for optimal guest satisfaction.
- Detailed safety rules and procedures regarding activities to customers and guests.
- Monitored assigned areas for unsafe activity and took corrective actions.
- Conducted regular assessments of swimming areas, identifying and addressing potential hazards promptly.
- Provided exceptional customer service to patrons, resolving issues and enhancing user experience.
- Provided swim instruction to patrons of varying skill levels.
- Conducted regular safety drills and maintained first aid equipment readiness.
- Collaborated with team members to ensure effective communication during emergencies.
